

Lista centralelor de mica putere (mai mici de 10 MW) aflate in patrimoniul Hidroelectrica si in curs de pregatire pentru vanzare

*LIST of SHP units (less than 10 MW rated)
owned by the HIDROELECTRICA company and intended to be sold*

Despite the important number of SHP units constructed mainly before 1989, many of them are not operational. Almost all the existing SHPs need refurbishment, implying high costs. Under these circumstances the Government nominated the HIDROELECTRICA company to take over the SHPs owned until 2002 by several other utilities (ELECTRICA, TERMOELECTRICA etc) and prepare these SHP units for operation and/or for sale.

The list of these 212 SHPs units, totalising over 200 MW and more than 600 MWh potential output, is the following:

	Denumire	Raul	Judetul	Anul pif	Putere, kW	Energie, MWh/an
	Name	River	County	Year of commissioning	Capacity, kW	Output, MWh/y
1.	Fenes 2	Fenes	Alba	1986	1,000	1,845
